WOMEN'S SAFETY AWARENESS PROGRAM

Women's safety is an important issue that affects everyone. To create awareness and help women stay safe, SCAD Polytechnic College organized a Women's Safety Awareness Program on December 03, 2025. The event featured Mrs. Mareeshwari, the Police Inspector of Pathamadai Station, who shared valuable advice on staying safe. She inspired students with her kind words and interacted with them in a friendly way, making the session both informative and engaging. Our Admission and activity Director, Dr. John Kennady, also spoke to the students. He encouraged them to do well in their studies and be disciplined in all activities. His message reminded everyone of the importance of hard work and good behavior. The program was a great success, helping students learn more about staying safe and becoming more aware of their surroundings.

PLACEMENT FIT TRAINING

Placement training includes activities and programs that help students and job seekers become ready for work. These programs aim to fill the gap between what is taught in school and what employers expect in the workplace. At SCAD Polytechnic, we focus on placement skill training programs to help students secure jobs. On January 3, 2025, our staff members, Mr. Suresh (Lecturer, ECE), conducted a training session for second-year ECE students to prepare them for placements. The program was a great success, with students learning many useful skills and gaining valuable knowledge that will help them in their future careers.
